THE SIXTY-THIRD ANNUAL REPORT OF THE BOARD OF MANAGERS OF ST. LUKE'S HOSPITAL

For the year ending September 30, 1921

To the Members of the Society of St. Luke's Hospital:

The work of the Hospital, in all departments, during the past year, has been the largest in its history. The total number of hospital days, 125,941 (the unit by which the work in the Hospital proper is computed) has been exceeded only once during the history of the Hospital and that was in 1918, when, due to the severe Influenza epidemic, cots were placed in the wards and in every available space in the Hospital, the total number of hospital days was 330 greater than in 1921. The visits to the Out-Patient Department, however, were larger than in any previous year and show an increase of nearly 18% over those of last year, and 27% over 1918. The Hospital, throughout the year, has not only been filled to its capacity, but, by reason of lack of room, has been compelled to decline admission to 1525 applicants.

It is very interesting and most gratifying to note that, while the expenses of the Hospital have steadily increased and were larger last year than ever before, our income has also increased, and we were able to close the year with a deficit of only \$373.22. Your auditors assured the President personally that this very satisfactory result was arrived at without postponing any payments which should be properly charged to the operating expenses of 1921 or including any income which did not belong to that year; and stated that every credit and charge on the books were correct and in order. From a business point of view, this is most gratifying and reflects uncommon credit on the financial and business management of the Hospital.

Thinking that it would be interesting to the Members of the Society to have a concise comparative statement of expenses, disbursements, volume of work and per capita cost covering a period of the past ten years, your President has had the following tables prepared and begs to submit them for your information:

Year	Operating Expenses	Permanent Equipment	Total Operating Expenses	Grand Total Current Expenses	Grand Total Current Revenue	Deficit	Hospital Days	Visits to O.P.D.	Per Capita Cost Ward Patients
1912	\$ 310,924.36	\$ 2,058.15	\$ 312,982.51	\$ 317,719.65	\$ 295,512.84	\$ 22,206.81	107,927	47,298	\$ 2.15

PERMANENT NEEDS OF THE HOSPITAL

St. Luke's is an incompleated institution. The accepted plans for the Hospital buildings provide for nine pavilions. Six of these pavilions have been erected and are fully utilized. The work has outgrown the capacity of the buildings in every department. If we are to meet the constantly increasing demands made upon us the remaining three pavilions should be erected as soon as possible and adequate endowments provided for their operation.

CONVALESCENT HOME AND HOSPITAL

It has been the hope and intention of the Managers for some time to extend our work so as to include a great country branch of the Hospital, within a radius of twenty-five miles and accessible to the public, to which patients could be sent in the early stage of convalescence and continued under the same medical and surgical supervision that was accorded them during the acute period of their illness. In such a place not only those convalescing from acute illnesses, both surgical and medical, would be cared for, but also those—and the number is very large—who by reason of the semi-chronic nature of their illness are not admissible to hospitals maintained for serious cases, or, who if admitted can be retained for limited periods only, as beds are always needed for the desperately sick. Among these are patients suffering from various diseases which require treatment and supervision to fit them, in some instances, for occupations different from those they have heretofore followed. A large number of these patients can be cured. Others can be benefited to a degree that will enable them to become happy and useful members of society. They will require long terms of treatment, and this can be better and more economically given in the country than in the city. Such a country branch would be a great blessing to the general community, filling a long felt want, and our Board are prepared to undertake such a work as soon as means to establish and maintain it are provided.

SOCIAL SERVICE

The Social Service has been doing a most excellent and growing work during the past year. The Service has the hearty

endorsement and cooperation of the Board, and the Hospital appropriated \$4,200 toward its expenses last year. Its total maintenance cost \$24,791.54, the difference being made up by contributions from its own members and monies raised by them. The Hospital would be glad to contribute more towards the expenses of this most important and efficient work if it were in a position financially to do so. St. Luke's is not a wealthy hospital in proportion to its work. In the last fiscal year its income from endowment amounted to \$220,645.28. Its current expenses for the year were \$728,146.39. The balance came from Pay-Patients, United Hospital Fund Collection, and gifts from individuals. 52% of its work was free. In the light of the above facts, it is impossible for St. Luke's Hospital to give more to the Social Service than it is at present giving. It commends the work of the Social Service, however, to the general support of our people as a work which is very ably managed and well worth while.

ESTABLISHMENT OF RADIO-THERAPY DEPARTMENT

During the year, at the earnest solicitation of the Medical Board, a Radio-Therapy Department was created. This Department is distinct from the Roentgen-Ray Department, which is for diagnostic purposes, and provides treatment for patients requiring x-ray therapy. The Department was opened for the reception of patients July 1, 1921, and the number of patients applying for treatment is already so large that the facilities of the clinic are beginning to be taxed and its establishment is amply justified.

GIFTS AND LEGACIES

The gifts and legacies, other than those listed in various schedules of the Annual Report, received during the year were as follows:

Estate of Mary Nevins Mayo

One-half share of distribution of principal collected for
Home for Old Men and Aged Couples and St. Luke's

Hospital	\$21,602.77
Estate of Henry C. Wells	9,946.20

During the past year we have lost two of our prominent associates: Right Reverend Charles Sumner Burch, Bishop of New York and ex-officio a member of the Board of Managers; Charles Howland Russell, a manager of the Hospital since October 26, 1886, and our honored and revered President from January 28, 1918 until the time of his death, February 19, 1921.

By order of the Board of Managers,

STEPHEN BAKER
President

EXTRACT FROM MINUTES OF MEETING OF BOARD OF MANAGERS
HELD JANUARY 31, 1921

The following MINUTE was unanimously adopted by a rising vote:

The Board of Managers of St. Luke's Hospital desire to spread upon the minutes of the Board, a record of the grief they feel at the death on the 20th day of December, 1920, of Rt. Reverend Charles Sumner Burch, D.D., LL.D., Bishop of New York and ex-officio a member of the Board of St. Luke's.

Although he had not taken an active part in the matters affecting the management of the Hospital, he was known and beloved by all its members.

A man of commanding presence, broadminded and tolerant, firm but gentle, with a never failing sympathy for all in trouble and distress. He was a splendid type to be connected with a Hospital for the ministration to the sick.

As Suffragan Bishop for nine years and as Bishop for fifteen months, he had proved himself an administrator of high qualities and had endeared himself to multitudes.

In the community at large, he stood for integrity and righteousness in civic matters and his advice on questions of public moment was often asked and freely given. His sudden death brings deep sorrow to all who knew him and takes away from our midst a man of great worth whose loss is now felt and will be felt profoundly in the years to come.

and it was

ORDERED that a suitably prepared copy of the foregoing Minute be sent to Mrs. Burch by the Secretary.

EXTRACT FROM MINUTES OF MEETING OF BOARD OF MANAGERS
HELD FEBRUARY 28, 1921

The Chairman announced with deep feeling the death on the 19th instant of Mr. Charles Howland Russell, a Manager of the Hospital since October 26th, 1886, and its President since January 28th, 1918. At the request of the Chairman, the Reverend Doctor Mottet, senior manager, prepared and offered the following Memorial Minute:

The Managers of this Hospital note with profound regret the death of their late associate, Mr. Charles Howland Russell, the seventh President of this Corporation, who passed hence on February 19th, 1921, in the seventieth year of his age. Mr. Russell became a member of the Society of St. Luke's Hospital on November 30th, 1885; and a member of the Board of Managers, one year later. He was elected Vice President, October 25th, 1915, and he succeeded the late Mr. George Macculloch Miller in the Presidency, on January 28th, 1918. He served actively on the Executive Committee, and the Auditing Committee, also the Committee on Membership and Nominations, and the Committee on Legacies and Trusts. Mr. Russell's life was identified with the life of St. Luke's Hospital for the long period of 36 years, during which time he gave, without stint, of his rare personality, his eminent position in the community, and his notable experience as a man of affairs. It was especially in connection with the problems frequently confronting the Committee on Legacies and Trusts, that the value of Mr. Russell's service to the Hospital became so notable a contribution. It has been said by those closest to him that at times he devoted both days and nights to tasks for which this committee assumes responsibility; and it is well known to all the members of this Board that his rare judgment, coupled

with extreme conscientiousness, wrought benefits for the Hospital, which can never be fully estimated. One week before his death, following a lingering illness, he was still actively engaged in furthering the project of arranging for the possible gift to the Hospital of a very large fund. Mr. Russell gave himself with deep earnestness to all the interests of the Hospital. His sincerity, his devotion, his ever ready helpfulness, and his courtesy won for him the unqualified respect and admiration of all his associates.

The Hospital has lost a rare friend; but it has also added one more to the names of revered predecessors whose influence will ever enlist public good will, public confidence, and public support for the Hospital.

The foregoing Minute having been unanimously adopted by a rising vote, it was

ORDERED that a suitably engrossed copy thereof be sent to the family of Mr. Russell.

CENTURY FUND

The Century Fund of St. Luke's Hospital was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons, of \$100 each, toward supplying the difference between the annual expenses of the Hospital and its income.

The number of subscriptions last year was but sixty-four. It is hoped that in the coming year they may be increased to the full number, 100, and thereafter maintained at that number.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

REPORT OF THE COMMITTEE ON THE TRAINING SCHOOL FOR NURSES

For the Year Ending September 30, 1921

The Committee on the Training School presents to the Board of Managers the following report for the year:

The statistics for the year are as follows:

Directress	1
Assistants	3
Instructor	1
Head Nurses	26
Anesthetists	2
Out-Patient Department	2
Roentgen-Ray Laboratory	2
Letters of Inquiry	1,044
Application forms sent out	441
Application forms returned	110
Applications accepted	77
Probationers accepted	63
Probationers dropped	5
Pupils admitted	55
Pupils resigned	4
Pupils died	0
Nurses graduated	47
Present number of pupils	106
Present number of probationers	31
Present number of nurses from affiliating schools	4
Present number of post graduates	2

Thirty-eight nurses were graduated on May 2, 1921. The Rev. Dr. Herbert Shipman delivered the address. The diplomas were presented to the graduating class by the Acting President of the Hospital.

The most important change made during the past year in the policy of the School has been the shortening of the course from

three years to two years and six months. The change will necessitate a rearrangement of the curriculum, but in no way will the present established course of instruction be curtailed. Our former plan of allowing a credit of six months to women holding a science degree is discontinued. The length of the regular course will be alike for all. We believe that it will be possible in a shorter period than three years to give sufficient training in the theory and practice of nursing to meet the requirements for general nursing service. If, however, upon graduation, students desire to continue further study in some special branch of nursing, they will, if they otherwise qualify, be permitted to remain longer as post graduate nurses. Hereafter social service, executive experience, extension work in the operating room, and dispensary clinics, will be regarded as special branches of nursing.

A class of thirty students was admitted for the preliminary course on September first under the new time regulation.

Recently the fourteen affiliating students from the Army School of Nursing were withdrawn. The affiliation with St. Mary's Hospital for Children of New York still continues and has proven thus far very satisfactory. We are also taking from the Broad Street Hospital of New York two senior students for training in children's diseases for a period of four months each. We have admitted within the year nurses from other hospitals for post graduate experience.

The care of the patients has been maintained during the past year in the midst of much discouragement caused by the shortage of nurses. We are entering our new year with a brighter prospect of obtaining a larger number of desirable pupils than for the past two years. Although our present staff has at times carried too heavy a burden, the spirit has been one of service and our difficulties have been cheerfully overcome as they arose.

The Committee desires to express its appreciation of the efficient services rendered by Dr. Hollis and Dr. Gould to members of the School when ill.

Dr. Bishop has been appointed Assistant Attending Physician for the nurses.

The curriculum of the School is as follows:

REPAIRS TO BUILDINGS

Throughout the winter and summer extensive repairs to the roofs and gutters have been carried on. The deterioration of copper, which has been evident for some years, has been troublesome and perplexing. It has occurred on other buildings in the city and the cause, which is still undetermined, has been the subject of several inquiries from builders and experts in metals. The repairs have been expensive and we hope they will endure for a long period, or until means are available for the entire reconstruction of the roofs whereby the mansards and dormers will be removed and open wards provided. Plans for the refashioning of the roofs have been made and have received favorable consideration.

OUT-PATIENT DEPARTMENT

The work in this Department shows material growth. It has been more carefully done than in any preceding year and the constantly increasing interrelation between the physicians and surgeons of the Hospital and the Out-Patient Department whereby the Attending Physicians and Surgeons see the more important cases of this Department and supervise their treatment, and the privilege given to the physicians and surgeons of the Out-Patient Department of making rounds with the Attendings in the wards, has stimulated the service and inured to the benefit of the patients and the interest of the doctors of the Department. The night clinics for tuberculosis, cardiac and syphilitic patients have been well attended and have given opportunity to many patients to receive treatment who cannot leave their work to attend day clinics.

SOCIAL SERVICE

This work is limited only by the limitation of means and workers. The demands and problems have no limitation. The most compelling need which confronted the Service was that of an additional worker in the syphilitic department, and this requirement has been generously met by the Executive Board of the Social Service. Phases of the work have been interestingly presented during the year by means of lantern slides to eight

of the Church Committees, to the Smith College School of Psychiatric Work, at a meeting at the Academy of Medicine, and at the residence of Mrs. Frederic E. Lewis.

FOLLOW-UP WORK

The purpose of this work is to get in touch with the patients while in the Hospital, to follow them up when they leave and to bring them back periodically to be examined by the doctors who cared for them while in the Hospital; or, in other words, it is an effort to check up the surgical work on the patients and to record their condition. Its growth is illustrated by the following tabulation:

	1920	1921
Patients examined in clinics	1782	2496
Average clinic attendance	63.4%	73%
Referred to other clinics of the Out-Patient Department	75	59
Referred to the Social Service Department	19	16
Visits to patients in Hospital	2040	2490
Visits to patients in homes	575	379
Letters written	369	962
Notifications written to patients	2726	3884
Patients interviewed in office	173	297

Thus far we have had but one nurse doing this work. If it is to be accomplished as thoroughly as it should be done a second follow-up nurse must soon be provided.

The following institutions and societies have kindly cared for our convalescent patients during the year, for which we express our grateful appreciation:

PASTOR'S REPORT

To the Honorable the Board of Managers:

Gentlemen:

The pastoral statistics for the year are as follows:

Baptisms	18
Marriages	2
Funerals	44

Holy Communion:

In Chapel	31	
In Wards	116	(1122 Communicants)
In private and extremis	337	

Holy Communion. In the Chapel: on the first and third Sundays of each month and on all the principal festivals of the Christian Year. In the wards: at least once a month in each ward and on Christmas Day and Easter Day in every ward.

Other Services. In the Chapel: on Sundays at 10.30 a.m. and 3.30 p.m. and daily at 6 p.m. Every day in Holy Week the Pro-Anaphora was said at 10.00 a.m. In the wards: every morning in the week, including Sunday.

The regular bed-side ministrations have been continued, the Assistant Pastor visiting the ward patients individually each day after prayers and at such other times as they desired or necessity required. The Clergy are always ready to minister to private patients when requested to do so.

Through the courtesy of Mr. Edwin S. Gorham, Secretary, the New York Bible and Common Prayer Book Society made the Hospital a grant of one hundred Prayer Books, one hundred Hymnals, and ten Bibles. The American Bible Society granted us one hundred New Testaments. These generous gifts have enabled us to provide each patient with a New Testament or a Bible and a Prayer Book and Hymnal for his personal use during

his stay in the Hospital. It is most gratifying, as one passes through the wards, to see what general use is made of these books and to hear the expressions of appreciation from the patients for the comfort they derive from them.

We acknowledge with much gratitude the responses made to our request for the ministrations to the patients by their own clergy, by the ministers of other religious denominations and by the clergy of the Roman Catholic parishes of the Ascension and Notre Dame.

The Pastor desires again to record his grateful acknowledgment of the continued interest in the spiritual work of the Hospital shown by the New York Altar Guild, which has provided, as for several years past, all Communion wafers used in the Chapel and ward Celebrations. The Guild has also presented a very handsome set of markers for the lecturn Bible in the Chapel.

The interest in the Library has been steadily maintained. About fifty new volumes have been added by purchase and approximately three hundred volumes have been contributed by friends, whose substantial interest in this branch of our work has been a great encouragement to those responsible for it.

The Pastor's Fund has been administered as follows:

ENDOWMENT OF BEDS

A bed in an adult's ward may be endowed by the payment of a sum not less than \$7,500.

A bed in a child's ward may be endowed by the payment of a sum not less than \$5,000.

The annual income of such endowment shall be applied to the cost of maintaining a patient upon the bed endowed so far as such income will suffice to pay such cost; and the founder and a successor named by him shall have the right of nomination. The annual charge for the support of an adult's bed is five hundred dollars, and for a child's bed three hundred dollars.

CIRCULAR OF INFORMATION

OF ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES
NEW YORK

History of the Training School. The St. Luke's Hospital Training School for Nurses was organized in the year 1888 for the purpose of preparing young women for the profession of nursing the sick.

Since its organization the Training School has undergone many changes and improvements as times and conditions have varied. The Hospital has been steadily increasing in capacity and improving in equipment and the Training School has kept pace with it until today it offers all of the most desirable advantages and opportunities that an earnest and energetic young woman could wish when seeking to prepare herself for this most important and noble life work.

In 1905, in accordance with a State law, the Training School was registered with the Regents of the University of the State of New York, thus being placed in the ranks of officially recognized training schools in the State.

Equipment for Instruction. St. Luke's Hospital is a large general hospital of 400 beds with medical and surgical wards for both adults and children, gynecological, orthopedic, eye, ear, nose and throat services. The Private Pavilion, with a capacity of 65 patients, is splendidly equipped with all the first-class modern conveniences. The Out-Patient Department has recently been housed in a new building with an equipment that is complete and superior in all respects. The Diet Kitchen and Operating Rooms, with competent instructors in charge, afford generous opportunities.

These departments are all open to the pupils for instruction, and each one is given her course of training in them as the requirements of the institution dictate or permit.

The Hospital has no maternity wards, but an affiliation exists with the Sloane Hospital for Women and the New York Nursery

and Child's Hospital, both in the city, at one of which each nurse is required to take a three months' course at some period during her training.

The Hospital furnishes two well-equipped class rooms for the use of the pupils, one for recitations and lectures and the other for demonstration purposes. Also, the Training School possesses a reference library which contains a variety of standard reference and text books. This is at the service of the pupils, and enables those who are ambitious and energetic to do advanced collateral reading and study.

Government. The Training School is under the same government as the Hospital, the Board of Managers of the institution having final jurisdiction over it. A special Training School Committee exists within the Board of Managers.

The officers of the Training School proper are a Directress of Nurses and an Assistant Directress of Nurses. The Directress of Nurses has the power to make all appointments of candidates for the School, and to determine the qualifications of probationers for the work, and the propriety of retaining or dismissing them during their probationary term. The reasons for rejection are not given, neither are letters addressed personally to the authorities of the School returned.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which the Hospital may deem sufficient.

Discipline. The rules of the Training School are such as any self-respecting, earnest woman will recognize as embodying only those requirements that are fair and necessary in an institution of this kind. These are made known to the pupil upon her arrival, and she is responsible to the officers of the Training School for her conduct while in training.

Length of Course. The course of training covers two years and six months from the date of entrance. The first six months of this period will constitute a Preliminary Probationary Term.

Requirements for Admission. Pupils are admitted regularly in classes in the spring and autumn.

Applications must be made either in person or through the printed "Form of Application" to the Directress of Nurses. If possible an appointment should be made for a personal interview,

the Training School office hours being from ten to twelve o'clock on Tuesday, Thursday and Friday.

Applicants must at least possess a high school diploma or its equivalent, and women of higher education will be given preference.

Candidates should be from twenty to thirty-three years of age.

Appointed Candidates. Accepted candidates are nominated in order on a waiting list according to the needs of the Training School. When called they are expected to report promptly, and to bring with them the means of returning to their homes should they not successfully pass their probationary term.

Any change of plan or address on the part of the candidate whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Acceptance into the Training School. At the close of the Preliminary Term each probationer, who has successfully passed the required examinations of the course, and who has given satisfaction in all other respects, will be accepted into the Training School upon signing a written agreement to remain in the School for the remainder of the term, and to conform to its rules and the rules of the Hospital.

Nurses, after they have been admitted into the Training School, are required to wear the Training School uniform while on duty.

Expenses. A fee of \$25.00, payable upon entrance, is required of all students. This fee will not be returned.

No salary is paid the pupils. The Hospital supplies the uniforms for all nurses who have been accepted into the Training School, but probationers must furnish their own uniforms in accordance with specifications which will be furnished them upon their appointment.

Text books, board, lodging and laundry are furnished by the Hospital for all nurses and probationers.

The uniforms and text books given the nurses belong to the School and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of Duty. The hours of duty are fifty-two hours weekly for the day staff, and ten hours nightly for the night staff.

Nurses are allowed one afternoon each week and half of Sunday off duty. These hours are subject, however, to the requirements of the Hospital work.

Vacations and Leaves of Absence. A vacation of three weeks is allowed each year. Pupils will not be allowed, during their course of instruction, to nurse sick relatives at home, nor to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If a nurse is absent for a period exceeding 4 weeks she will lose her class position in the School but may enter the succeeding class, unless such absence exceeds 4 months, when she will forfeit her membership in the Training School. If readmitted, she must begin her course anew. This rule may be modified by the Training School Committee.

All time lost for any reason must be made up.

Illness. In illness pupils are cared for by the Hospital, receiving the professional services of the Training School Physicians.

Records. Careful and complete records of class work, examinations and general deportment of pupils are kept on file in the Training School office.

Examinations. Written or oral examinations with practical tests, are required at the close of each course of study. Any pupil failing in a subject will be required to take it again the following year.

Final examinations are conducted by a Committee of the Medical Board.

Graduation. A course of two years and six months of study and experience, including the probationary period, is required for graduation. When the full term is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to the fact, after which they are at liberty to choose their own field of labor.

Formal graduation exercises are held in the Chapel of the Hospital at the close of each school year.

Religion. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

Services are held in all the wards of the Hospital each morning, and Evensong at 6 o'clock each evening in the Chapel.

Nurses' Home. The nurses have as their exclusive home the *Vanderbilt Pavilion of the Hospital*. This is a large, light and airy building equipped with all modern conveniences and comforts, having, in addition to the nurses' rooms and baths, etc., a parlor on the first floor comfortably furnished for the entertainment of friends, a dining room on the sixth floor; night nurses' quarters on the seventh floor; and on the eighth floor a large bright solarium and club room, in which the nurses are also provided with a library.

The comparative isolation of the Nurses' Home from the Hospital proper makes it possible for the nurses to enjoy complete relaxation and a generous amount of recreation when off duty.

AFFILIATION WITH TEACHERS COLLEGE

An arrangement has been made with Teachers College, Columbia University, whereby high school graduates who meet the requirements of matriculation in the Freshman class may work for the Bachelor of Science degree and at the same time pursue the regular course of nursing training. The combined curriculum requires five years of work, the time being divided about equally between the college and the hospital.

The first two years will be spent in residence at the college, taking certain prescribed general academic subjects including the science on which nursing work is based. The second two years will be spent entirely at the nursing school of the hospital where the student will receive both theoretical and practical training in nursing. The final year will be spent largely at the college in the study of special subjects leading to public health nursing, teaching and supervision in nursing schools, or other special branches of nursing work.

For further information apply to the Department of Health, Teachers College or to the Directress of Nurses, St. Luke's Hospital.

ADMISSION OF PATIENTS

DISEASES TREATED

All kinds of *acute, curable, and non-contagious* diseases are treated in the wards. Sufferers with chronic and incurable complaints are received and retained at discretion, but not permanently provided for. None are received as patients, who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING

Applications received in person daily (except Sunday) from 10 a. m. to 5 p. m. Cases of sudden injury requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communications should enclose a written certificate from a regular physician as to the applicant's disease, present condition, and symptoms and it should state whether bed in general ward or private room is desired. If latter, at what price.

Applicants from out of the city requiring *medical* treatment ordinarily are not received.

Applicants requiring *surgical operations* not obtainable at home are admitted from any part of the country.

RATES OF BOARD

GENERAL WARDS

Board of patients in general wards per week is \$17.50 for adults and \$8.75 for children (under twelve years of age), payable two weeks in advance. Unexpended portion of payment is refunded at the same rate on patient's discharge.

Applicants applying for *free* treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue and to the support of the increasing charity work of the general wards.

PRICES OF PRIVATE ROOMS

Single rooms \$4 to \$15 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid two weeks in advance and any unexpended balance will be refunded at the same rate on the patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing or expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons are at all times within call, at discretion of nurse.

Diet is regulated by Physician's orders, and meals are served at regular hours.

AS TO FEES

No officer, nurse, or servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect to receive such fee from any patient occupying a private room, provided, that in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending physician or surgeon, besides paying first the Hospital charges for board and nursing.

2. The attending and consulting physicians and surgeons are expected to make definite private arrangement as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff whom they may select that the above arrangements may be made.

4. The physicians and surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee only to those who are unable to pay it, besides helping the Hospital rate for board and nursing.

RULES FOR PATIENTS

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the ward as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offenses for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctor's regular professional rounds. Loud talking, reading aloud, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "passday." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food or delicacies of any kind except those prescribed and furnished by the Hospital or furnished by express permission of the Hospital authorities are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors are not allowed in the buildings.

4. No patient may purchase or procure any members of the Household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in wards to retire to their beds is 9 p. m.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor, who may, at his discretion invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 a. m. and 12 m. and between 1 and 5 p. m.
2. The friends of patients are admitted to the general wards, from 1:30 to 2:30 p. m. on Tuesdays and Fridays, and on Sundays from 2 to 3:15 p. m.
3. Women visitors, unless near relatives, are not admitted into the men's wards, nor men visitors into the women's wards.
4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.
5. The cards of visitors to private patients will be taken to their rooms, under restrictions imposed by the attending doctor, daily from 10 a. m. to 1 p. m., from 3 to 5, and from 7 to 8 p. m. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 9 p. m.
6. The friends of patients are cordially invited to the Chapel services on Sunday at 3:30 p. m.
7. In case of extreme sickness special passes will be granted to the immediate relatives of the sick patient.
8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.
